Dear Chuck and Eric:

It has now been almost two years now that we have been running your stacker and I am happy to say that it is, and can do everything that you promised and more. Case in point, there has been many days we have stacked 55,000 ft/hr for 11 continuous hours with no problems and without getting behind.

I immediately knew your company was one with which I wanted to do business after meeting Eric at Rocky Creek Lumber in Alabama. My meeting with him instilled a feeling of trust, and I knew my best interest was MoCo's primary concern.

I would, and have many times, recommend MoCo to anyone needing a true high-speed stacker. Feel free to use my name as a reference any time.

Keep up the good work; come by when you are in South Carolina.

Sincerely,

Micky Scott
